

Optimizing the Student Experience

Midge Bowers & Beth Phillips

Objectives

- Describe the ways to optimize the student clinical experience
- Explore the differences in students today
- Examine the changes in today's healthcare system that impact student learning
- Discuss strategies to push the envelope for optimization of the student experience
 - Undergraduate students
 - Graduate students

The differences in students today:

Greetings, Gizmos, Google.....

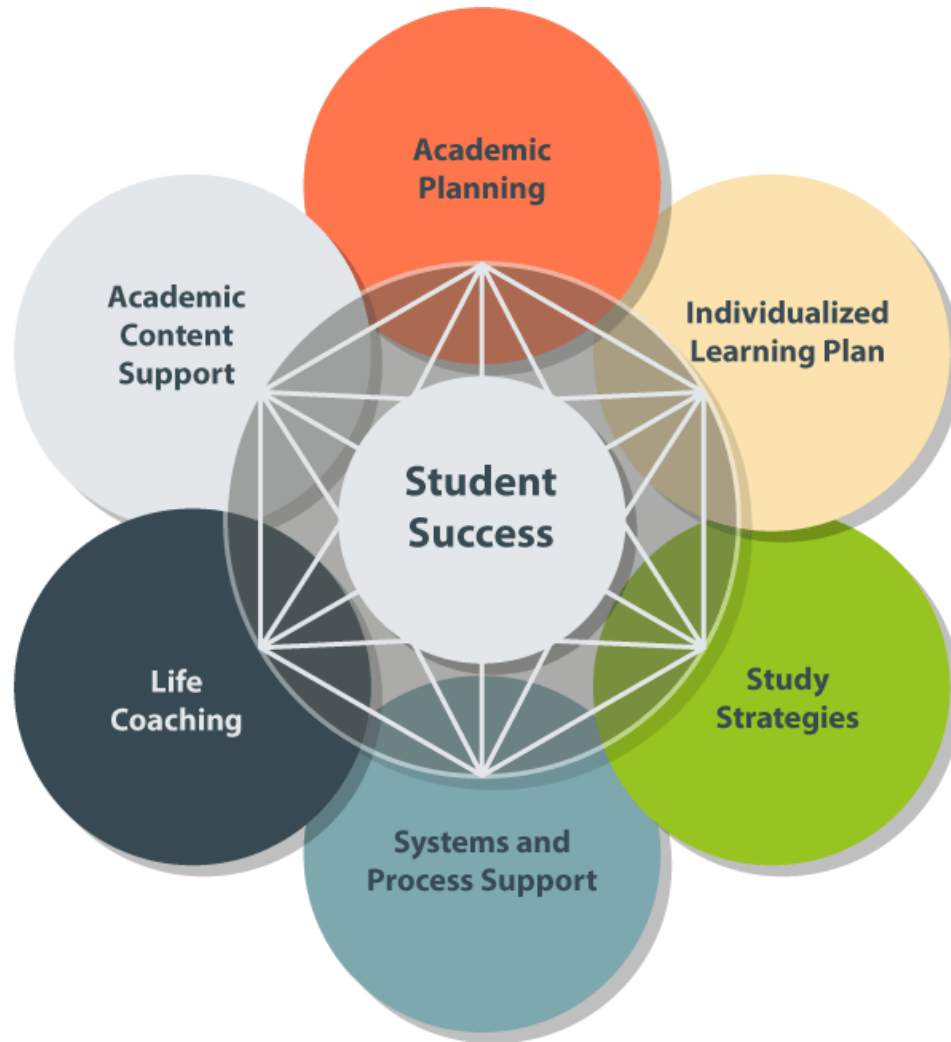

Changes in today's healthcare system

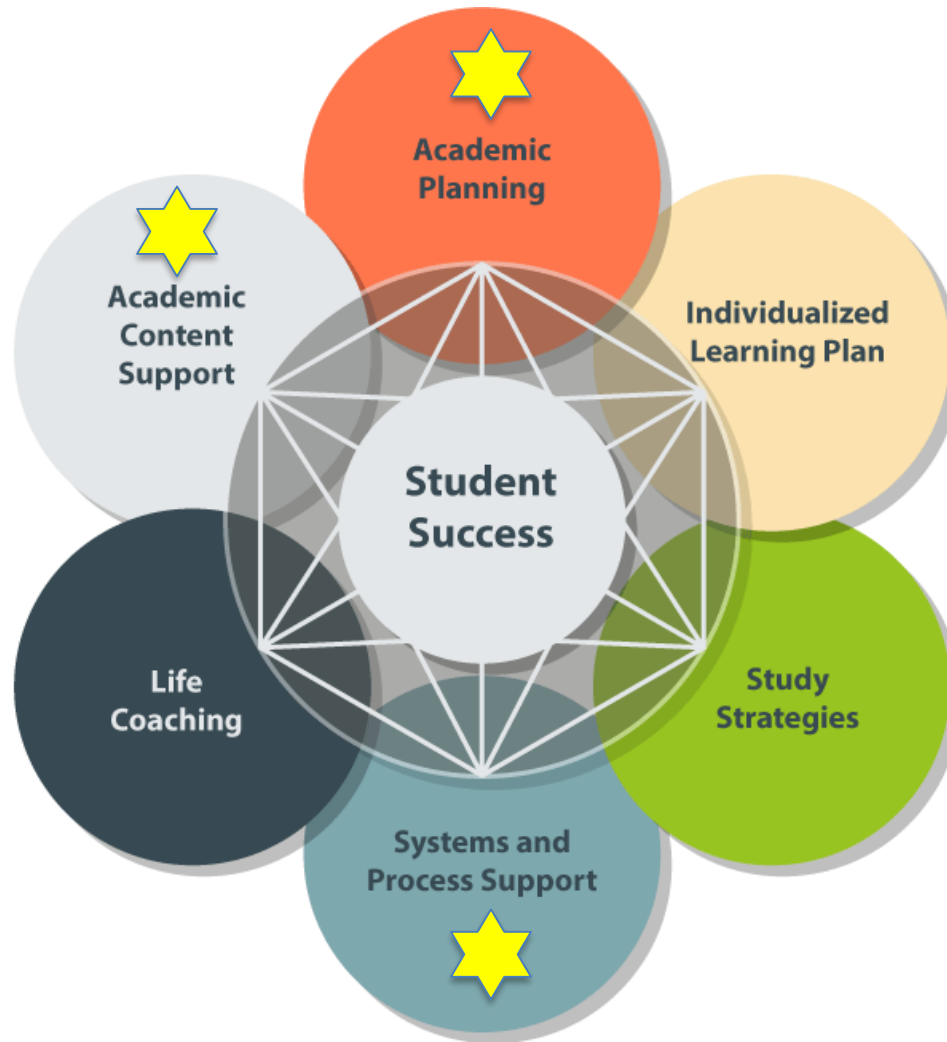

- Evidence based practice
- Changing demographics of nurses; staff and faculty
- Technology, EHR, patient acuities, staff ratios
- Sicker people at home or LTC, polypharmacy, value-based care vs volume
- Fees for placements, lack of clinical sites, simulation substitution
- High expectations for pursuing higher education and its relationship to quality patient care and outcomes

Strategies for Student Success

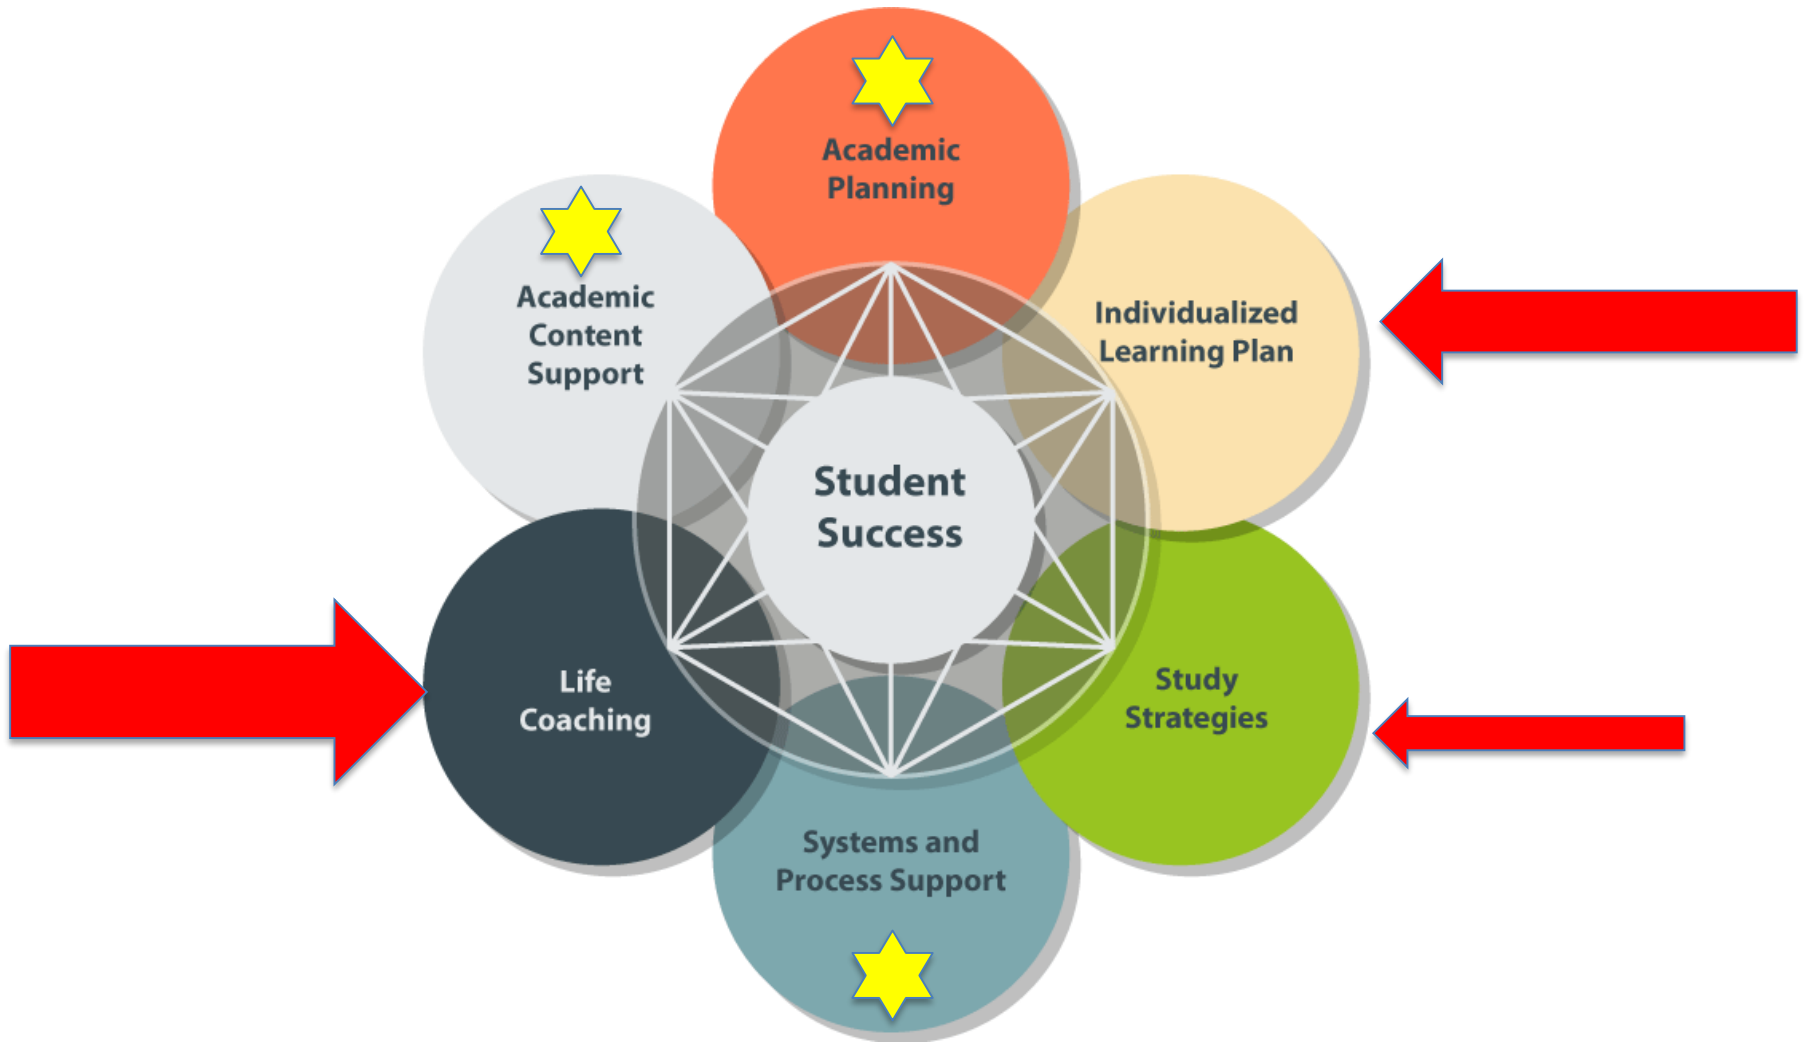

- Undergraduate
- Graduate

Strategies for Student Success

Strategies for Student Success

Strategies for Student Success

Strategies for Student Success

- Determine how your students learn best
- Help them set realistic goals
- Help them identify an accountability partner
- Make it personal!

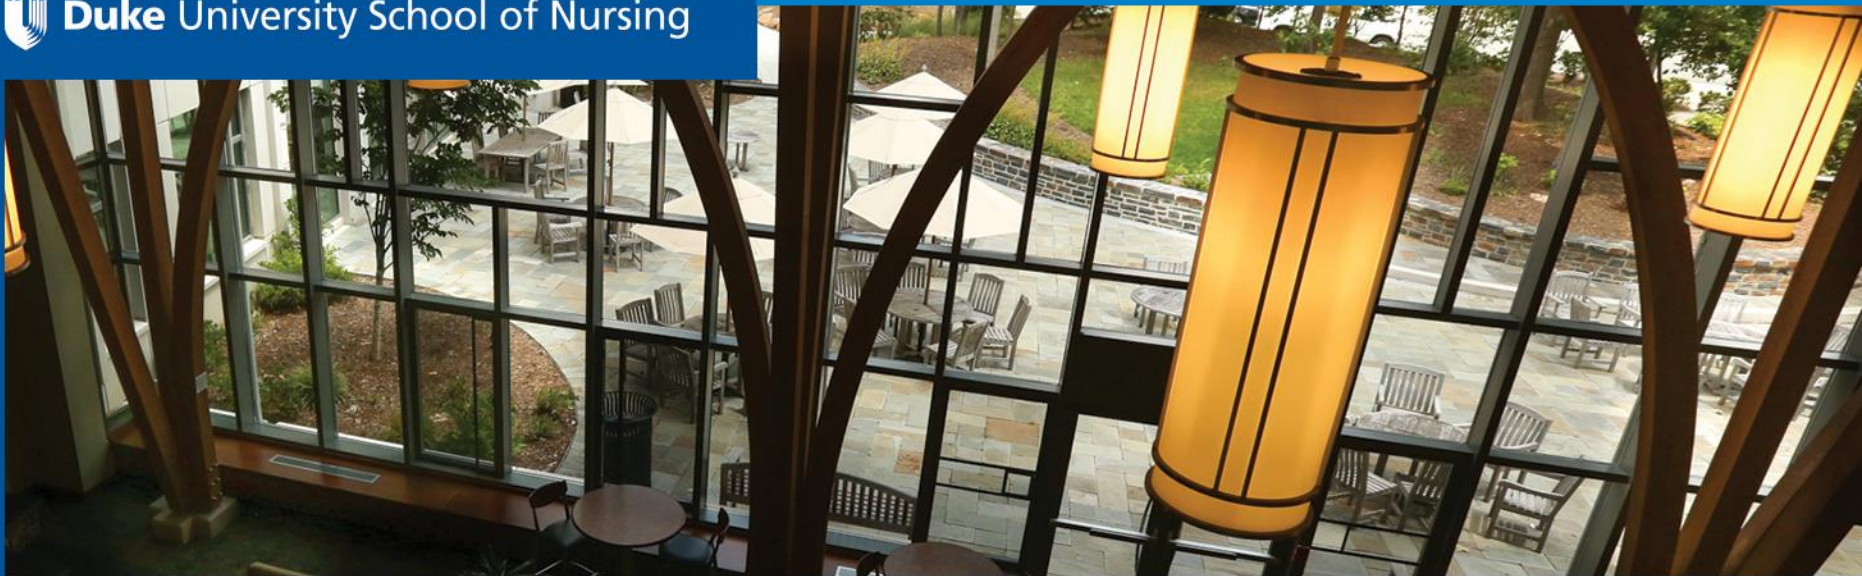

Chambliss, 2014; Thomas, McIntosh, & Mensik, 2016

Strategies for Student Success

- Address poor academic performance early
- Identify poor attendance and study skills
- Notice minimal social support
- Help with lack of time management skills
- Look for solutions to financial barriers
- Provide adequate information regarding academic support services
- Welcome and support cultural differences in your students

Summary- Objectives Met

- Describe the ways to optimize the student clinical experience
- Explore the differences in students today
- Examine the changes in today's healthcare system that impact student learning
- Discuss strategies to push the envelope for optimization of the student experience

Questions?

Thank you!

Midge and Beth
